Release Notes

Monday Webforms 2.1

Version 2.1

- A placeholder text can now be specified for input fields.

- The label of the submit button can now be changed by the editor.

- Monday Webforms now supports jQuery 1.9+

- New file upload validator added.

- The class *GomFormEditor* has been moved to another package.

  If you use your own development workspace, you have to change the class name of the GOM element within the modul descriptor *proptotype.module.xml*.

  Please change *com.monday.webforms.editor.gadgets.GomFormEditor* to *com.monday.-webforms.editor.gom.GomFormEditor*.

Version 2.0

- Monday Webforms was integrated into FirstSpirit 5.x.

- This version has been certified by e-Spirit for use with FirstSpirit 5.x.

- **Note:** Versions with major version "2" are compatible to FirstSpirit 5.x. Versions with major version "1" are only compatible to FirstSpirit 4.2-R4.
