1 Release Notes

The **PIM Integration Module** allows you to quickly and easily integrate your store data from hybris into your FirstSpirit™ environment.

This document describes the module's new functions, changes, and bugfixes since the last release.

2 PIM Integration Version 2.0.73

2.1 Changes

Version 2.0.73 only includes updates for FirstSpirit™ 5. No new functions were added.

2.2 Fixed Bugs

There are no known bugs that have been fixed with this version.

3 PIM Integration Version 2.0.75

3.1 Changes

No changes.

3.2 Fixed Bugs

Previous version could not handle "java.lang.Double" values from hybris.
